Summary

As an experienced React developer, I'm passionate about building dynamic, high-performance web applications that deliver seamless user experiences. I thrive on staying up-to-date with the latest trends and technologies in the React ecosystem, and love exploring new ways to optimize and streamline my code. Whether I'm building custom components from scratch, integrating with APIs, or working on complex data visualizations, I always prioritize clean, scalable, and maintainable code.

Overall, my goal as a React developer is to build web solutions that are both functional and aesthetically pleasing, while also delivering the best possible user experience. If you're looking for a skilled React developer who is committed to delivering high-quality code and driving project success, I would love to connect and learn more about your needs!

Experience

Javascript Developer

Personal Project

May 2023 - Jun 2023 (2 months)

Developed a personal portfolio website using ReactJS and Tailwind CSS.

Designed and implemented a modern and responsive user interface for showcasing personal projects and skills.

Utilized ReactJS components and state management to create a dynamic and interactive browsing experience.

Javascript Developer

Personal Project

Apr 2023 - May 2023 (2 months)

-Developed an advanced Puzzle game utilizing ReactJS and Tailwind CSS, resulting in a captivating user experience.

-Implemented responsive design principles using Tailwind CSS, ensuring seamless gameplay across different devices and screen sizes.

This experience allowed me to sharpen my ReactJS and Tailwind CSS skills while working on a challenging and engaging project.

Javascript Developer

Personal Project

Mar 2023 - Apr 2023 (2 months)

Developed a portfolio web application as the final project for the Advanced React Coursera certification, showcasing proficiency in React and Chakra UI.

Freelance

COLLEGE RISING COMPANY

Apr 2022 - Aug 2022 (5 months)

Developed a robust web scraper using JavaScript and Google App Script to retrieve information about apartments from various websites.

Built a seamless integration with Google Sheets, allowing the web scraper to populate and update information on a designated Google Sheet automatically.
